Service Brochure

At the peak of the Paper Recycling industry for over 20 years – providing innovative and practical solutions for your wastepaper collection and recycling requirements, while ensuring your legal and environmental compliance, at all times!

WHO WE ARE

THE START OF OUR JOURNEY

Highlander International Recycling was formed in 2002 by Brian Bingham and Stephen Duffy, who have combined experience of over 60 years within the Paper Recycling Industry - unrivaled in the Scottish market!

ABOUT US

We are the largest independent paper recycling company in Scotland, recycling 1000 tons every week and selling our products all over the world. Our services include paper collections and recycling, reel handling and splitting, cardboard core and reel end recycling, paper based product destruction, security shredding and provision of recycling machinery such as compactors and balers.

PROCESSING FACILITIES

We operate 3 modern, fully automatic baling machines, giving us one of the largest paper recycling processing capacities in Scotland. We also have the largest reel splitter in Scotland, a slow speed product destruction shredder for redundant branded paper products, 3 x slow speed security shredders for confidential wastepaper, 7 x JCB Tele-handlers with various grab attachments and 3 x JCB material grabs, meaning we have a processing and handling solution, to suit every need!

RECOVERED PAPER COLLECTIONS

We have a wide range of collection systems available to customers, ranging from walk-in containers, tubs, cages, bale and pallet collections, bags and boxes for security shredding, product destruction collection systems and standard recycling collections, where required. We operate a fleet of over 20 modern, efficient collection vehicles, which meet Euro 6 emissions standards at all times.

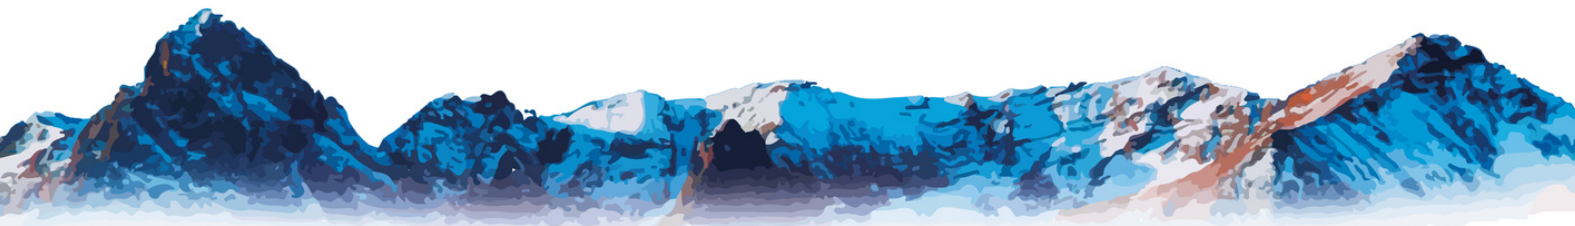

PAPER RECYCLING

We collect and recycle waste paper of all types and quantities, serving a wide range of customers and industries, such as printers, packaging manufacturers, retail and distribution, office and service-based businesses and many more. From cardboard to office papers, Highlander provides responsible, reliable, fully accredited and legally compliant recycling services all throughout Scotland and we sell the processed recycled paper, to consumers and paper mills across the globe.

We are at the Peak of paper recycling! The Highlander brand is synonymous with innovation, reliability, customer care and responsiveness and we recycle a plethora of materials, such as printers waste, cardboard, solid boards, office paper, confidential waste, cores, reels, reel ends, newspapers, magazines, flyers, leaflets and much more!

OUR PROCESSING SERVICES

- 1 x Bigro 120, automatic baling press with 18-meter feed conveyor, capable of processing up to 30 tons per hour.
- 1 x PAAL Konti J 325 automatic baler, with standard feed conveyor, processing capacity up to 30 tons per hour.
- 1 x BOA HRSM 25/40T, 2.2-meter reel splitter, with lifting ramp and both feed and ejection conveyor systems.
- 1 x PAAL PGS 6540V, automatic baling press, utilised within our confidential wastepaper shredding center.
- 1 x Ulster 300 Product Destruction, Slow speed shredding unit with loading hopper feeding our PAAL Konti baler.
- 1 x Slow speed Ulster 150 Security Shredding unit, with twin motors, short-bed feed hopper & 15.5mm cut size.
- 1 x Slow speed Ulster 80 Security Shredding unit, with twin motors, short-bed feed hopper & 15.5mm cut size.
- 1 x Slow speed Ulster 45 Security Shredding unit, with twin motors, short-bed feed hopper & 15.5mm cut size.

Closed HL5 & HL20 containers: These walk-in containers are fully lockable and have padlock slots, allowing security of material at all times and are loaded, via the rear doors of the container. Sizes available from 14 to 50 yard³ available.

Cages / stillages / tubs: These collection systems are ideal for areas that have volumes of waste spread across wide areas, or ideal for internal storage of waste before being brought to a central point and are easily moved by forklift or pallet truck. Typical capacity per tub is 500 litres or up to 150kg of wastepaper (dependant on nature and type of papers)

Open top HL5 & HL20 containers: This container is designed to be loaded from over the side / from the top or can be loaded via the rear doors of the container. Containers are fully lockable with padlock slots and Sizes available from 14 to 50 yard³ available.

Compactor HL5 or HL20 containers: These containers are designed to attach to compactor machines, allowing optimum wastepaper payloads and are ideal for loose cardboard, printers waste, production spoils, converting operations or any other large volume, wastepaper generators - Sizes available from 25 to 50 yard³ available.

Bags: Ideal for smaller amounts of office paper for recycling or papers for security shredding, these bags are paper based, designed for single use only. These bags are strong and self-sealing, facilitating an easy concealment once the bags have been filled and are ready to be collected and have a capacity of up to 15kg per bag.

Moffett MOUNTY collections: This system is designed to allow collections of pallets, tubs, cages or bales using our lorry mounted forklift - this is ideal for customers who have minimal or no forklift provision and Highlander operate 3 x trucks and Moffett MOUNTY's in central Scotland - the largest fleet in the country!

Highlander - At the peak of paper recycling for over 20 years!
